PLANS FOR CEREMONY OF SIGNING TREATY

Historic Hall of Mirrors, Once Occupied by Monarch, Is Selected for Most Momentous Occasion in History of World.

PARIS, June 13.—Plans for the great formal ceremony of the signing of the peace treaty at the Chateau de Versailles have been withdrawn from the pigeon holes in which they were gathering dust when no definite date for the signature was in prospect.

French officials entrusted with the arrangements were informed yesterday that everything must be ready for the signing on July 5. They worked out an elaborate project with diagrams, sketches, time tables and suggestions for sample tickets for the plenipotentiaries, representatives of the press and spectators. The project was forwarded almost a month ago through the proper channels for approval.

The officials even went so far as to select a table on which the treaty should be signed and to build barriers in the great Place d'Armes in front of the chateau, behind which the general public will be permitted to witness the arrival of the delegates. They also tried out the great fountains in the park at Versailles, which will be played in connection with the ceremony.

The actual signing, as originally announced, will be staged in the historic Hall of Mirrors. The delegates, who will arrive by automobile, will enter Versailles by the Avenue de Paris, a boulevard leading to the main entrance of the chateau.

To reach the Hall of Mirrors the delegates will traverse the state apartments, at one time occupied by the monarch and his Queen. A space at either end of the Hall of Mirrors will be reserved for the plenipotentiaries, while at the other will be the correspondents representing the newspapers of the world.

FIFTEEN MILLION PIECES OF MAIL MATTER GO OUT

Output of Printed and Pictorial Matter for Methodist Celebration Great.

COLUMBUS, Ohio, June 13.—Fifteen million pieces of mail matter—and then some! Put on your mathematical thinking cap and think hard. Do you catch the bigness and the bulk of the output of printed and pictorial matter which has passed through the Methodist centenary celebration's mailing department to date?

Now turn it the other way about. Think in separate items, instead of en masse. How many mere physical motions? How much mental effort constantly required in comparison of lists in attention to every minutest detail in initial, house number, post box, business office, firm name—in addition to the formal address of city, county, State, at home, and foreign names of people? Of places, the remotest parts of the world abroad. In it, too, keeping up the steam under the boiler to make the centenary engine go has been a stupendous undertaking.

Here are a few of the larger items of mail sent out: 300,000 designs, "Bringing the World to Columbus"; 50,000 private mailing cards, 100,000 automobile maps, 300,000 blotters with centenary scenes as designs; 500,000 pamphlets of information, 100,000 of official reports, 50,000 general posters, 100,000 caravan folders to automobile owners.
